LAST YEAR

Improved usability and support

Documentation the good, bad, and ugly

esaf-swt

- Documentation: developers don't write it, and users don't read it.
- Site is sad ☹️
- Wiki is sad ☹️
- Askbot is sad ☹️
- Mailing list is sad ☹️
- User support needs more focus

THIS YEAR

- **Documentation:**
 - Developers are writing it!
 - Users can get it.
- **Site is better ☺**
 - <http://esgf.llnl.gov>
- **Wiki is improving ☺**
 - <http://esgf.llnl.gov/wiki>
- **Askbot is dead ☺**
- **New support FAQ site**
 - <http://esgf.github.io/esgf-swt>
- **Mailing list is working! ☺ ***
- **User support has more focus ☺ ***
 - * Thank you Torsten and Team!

DOCUMENTATION

1. “I wish I knew where to find documentation about X.”

2016 ROAD MAP

- More front line support
- Improve second leave support
- Over haul wiki / remove 85% of old info
- Consolidate documentation
- Integrate with CoG front end
- Separate User, Developer, Admin info

IF YOU KEEP SAYING "BEAR WITH ME FOR A MOMENT", PEOPLE TAKE A WHILE TO FIGURE OUT THAT YOU'RE JUST SHOWING THEM RANDOM SLIDES.

CONCLUSION / FACE TO FACE THUS FAR

- Observations so far
- Being down sucked
- Lets not be down again
- ESGF 2.0 is going to rock
- Data is large and expensive to move
- Move compute to data, not data to compute

THANK YOU
